Summary

UX/UI designer and Web Design and Development student (3.97 GPA) with 3+ years of professional UX/UI and branding experience. Seeking a UX Design internship to grow through mentorship and design critique.

Education

Brigham Young University – Idaho | B.S. in Web Design and Development | Expected Dec 2027 | GPA 3.97 / 4.0

- Relevant coursework: ART130 Intro to Graphic Design, ART 230 Typography I, CSE 471 UX Research, WDD 231 Web Frontend Development I

Coursera – Google | Google UX Design Certificate | In progress, expected Dec 2026

Technical Skills

- **UX & Interaction Design:** Design thinking framework, competitive analysis, information architecture, user flows, wireframing, mockups, prototyping, responsive design, accessibility, usability feedback
- **Visual Design:** Layout, typography, color, branding, iconography, design systems, visual consistency
- **Tools:** Figma, Photoshop, Illustrator, InDesign, Flutterflow, Canva, Adobe XD
- **Development:** HTML, CSS, JavaScript, Python, WordPress, Shopify, Wix, MySQL, Firebase Firestore

Projects

Planted | *UX Design Case Study*

Figma, Design Thinking, Information Architecture, User Flows, Wireframing

- Identified challenges beginner plant owners face when understanding plant needs and maintaining consistent care.
- Conducted a competitive audit and developed a persona, problem statement, “How Might We” question, sitemap, and user flow.
- Designed low-fidelity wireframes focused on helping users understand what action to take next and applied user-centered design, clear content hierarchy, accessibility considerations, and responsive interface patterns.
- Iterated on digital wireframes and prototype concepts to create a friendlier way for users to understand and care for houseplants.

Professional Experience

Brigham Young University – Idaho | *Project Manager* | *Rexburg, ID* | *April 2026 – Present*

- Created a knowledge base style guide defining color, header sizing, layout, content hierarchy, structure, and image use, ensuring visual and structural consistency across 298 articles.
- Supervise a team of 4 agents who meet with partners, reviewing their progress, answering questions, resolving website feedback, and serving as the liaison between full-time staff and agents.
- Test the support chatbot to verify it displays accurate information from the knowledge base, identifying errors and content gaps.

Brigham Young University – Idaho | *Customer Experience Specialist* | *Rexburg, ID* | *August 2024 – April 2026*

- Analyzed student support tickets and knowledge base usage trends to identify recurring pain points and gaps in support content.
- Turned those findings into 30+ new and revised help articles that gave students and agents clearer answers.
- Partnered with 10 campus offices through monthly meetings to understand their needs and improve how the BYU–Idaho Support Center collaborates with them.

Tecsellent Group – *UI/UX Designer* | *Mexico City, Mexico* | *March 2021 – August 2024*

- Led 20+ branding projects, delivering cohesive logotypes, iconography, and visual identity systems for clients.
- Designed 4+ web and mobile applications and supporting assets (banners, promotional posts, logotypes), with a focus on consistent branding across materials.
- Refined mockups through client feedback to reduce revision rounds.
- Collaborated with engineers to design and build dynamic web solutions, translating design mockups into working interfaces.
